

B Series & MX Series

Air Handlers

New for
2009!

Factory installed in all B Series air handlers,
including variable-speed models

Multi - Function Control Board

These features will save you time and money:

(Features are compatible with both factory and field installed circulating pumps)

1. Pump timer - Activates pump for 1 minute every 6 hours eliminating stagnant water in hot water coil
2. 24VAC isolation valve control - allows for zoning control
3. Auxiliary contacts for water heater or boiler activation
4. Freeze protection - Standard factory installed, activates at 40° F
5. Thermostat connections
6. Time delay for blower activation:
 - 60 seconds (tap in OFF position)
 - 130° F Aquastat (tap in ON position)

Note: Aquastat tap only included if ordered

B Series & R Series

Air Handlers

Variable-Speed Motor Control Board

Improve energy efficiency & IAQ:

(Board is factory installed with every variable-speed motor)

1. Thermostat connections
2. Constant air circulation - Airflow at 50% cooling CFM, improves IAQ and eliminates stratification (G-Connection)
3. LED lights - Display operation mode and when dehumidification is activated
4. Dehumidification - Cutting resistor reduces cooling airflow by 10%
5. Settings - Choose your own cooling/heating airflow, by selecting tap A - D
6. Fine-tune - (+) tap: Increases CFM by 10%, (-) tap: Decreases CFM by 12%

Additional features:

- Soft start - Airflow at 82% cooling CFM for first 7.5 minutes of operation
- Time delay - 1.5 minute blower off delay at the end of a call for cooling
