Improved Air Quality

Microbes can double every 20 minutes on an untreated surface!

Standard plastic pan with visible mold

UV resistant plastic pan with Microban® antimicrobial additive

Mold is part of our environment and there are no practical ways to completely eliminate mold spores. The best defense against mold in a home is to prevent it from taking hold through moisture control and the use of mold resistant building materials.

Every Healthy Solutions® coil features Microban® technology, providing added protection against the build-up of mold and mildew within your system!

Perfect Attic Solution

Dedicated horizontal coils offer a strategic advantage over standard multi-position coils!

Sloped Drain Pan

Patented "V" pan directs water to the front of the pan and away from furnace flue connection

Dual Drain Connections

Green/Red connections on each side for easy installation

Perfect Furnace Fit

Coil matches furnace width, no adaptor required

5 Ton Attic Access

21" solution easily passes through 22" attic opening

Top Refrigerant Connections

Counter flow and line re-routing required

The ADP Advantage

PROTECTION

ADP is the exclusive provider of coils featuring antimicrobial product protection by Microban®, a recognized consumer brand.
