MORE FEATURES FOR 1/2 THE PRICE OF THE COMPETITION

AG-1250E + AG-9100 Alarm Features:

- The AquaGuard AG-1250E is a multipurpose water sensor that can be mounted directly on HVAC/R units, in a metal or plastic secondary drain pan, on floors or even on a wall.

- AG-1250E automatically shuts off the HVAC/R unit and activates the AG-9100 External Audible & Visual Remote Alarm if any overflow is detected in as little as 1/16 inch of water.

- AG-9100 has a loud 103 decibel audible alert, with on/off switch, and five (5) bright white water detection LED lights.

- AG-9100 alarm can be mounted over 250 feet away from the AG-1250E multipurpose water sensor in a convenient or highly visible location.

- No need to go up into an attic, on a roof, or down into a basement to check on the status of the HVAC/R unit unlike competitors' products.
