

No matter where you live, your home will experience power surges and spikes

Power surges are the silent killer for home appliances and HVAC equipment. Most homeowners protect their electronics, but leave more valued equipment unsecured. Surges can wipe out equipment and leave you searching for answers. *Search no more.*

The easy-to-install AG3000 surge protector is the perfect add-on for HVAC equipment. It features unmatched surge protection ratings and a 3-year, \$7,500 connected equipment warranty.

* An estimated \$250-\$500 million dollars a year is lost from property damages caused by power surges. Having a heating and cooling professional install an AG3000 creates value for you and your customer.

Invest in peace of mind with the AG3000!

*Based on analysis of insurance claims vs. cloud-to-groundlighting flash data by the National Lightning Detection Network

AG3000
