AP260 Air Purifier

Smart features for fast, effective and easy purification of the air in your home

The AP260 5-stage air purifier is an innovation in air quality technology designed to remove pollutants from your air ranging in size from large particles down to airborne bacteria, harmful gases and unwanted odors for spaces up to 260 square feet.

With Intelligent Auto Operation, it automatically adjusts its cleaning level to sense changes in air quality and indicates your air quality status through a unique colored LED display.

It's modern, efficient and convenient and the perfect solution for allergy-sufferers, pet owners or anyone wanting clean and healthy air in their home. All backed by 1 yr. any part; 2-5 yrs warranty.

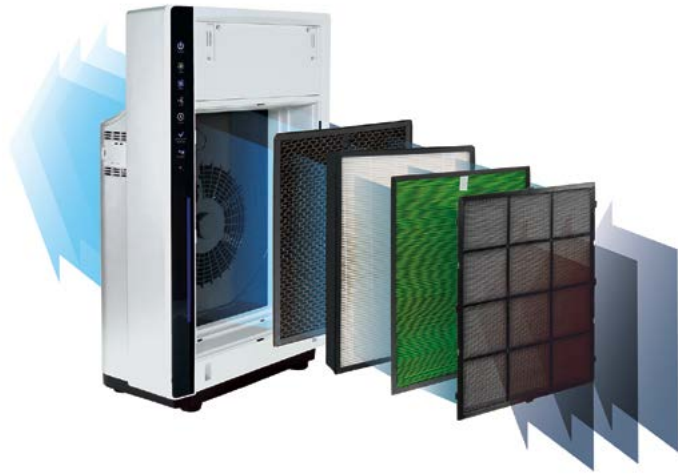

RATED FOR

Superior air filtration

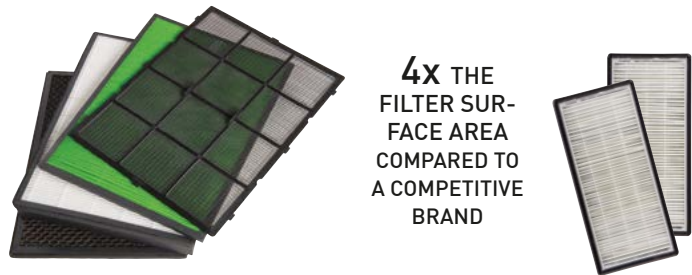

5-Stage Filtration:

- Pre-filter, multi-filter, HEPA filter, carbon filter and plasma generator
- Effectively filters dust, pollen, mold spores, pet dander and tobacco smoke, among other pollutants
- Enhanced HEPA filter captures up to 99.97% of all particles as small as .3 microns.

Greater Filter Surface Area:

- Over 4,700 square inches of filter media surface area
- 4 X more filter area than a competitive brand in the same category

Air purification you can see

- Unique color-changing Air Quality LED display changes color to indicate air quality
- Intelligent Auto Operation automatically adjusts its cleaning levels to detected pollutant changes
- Ultra quiet night function adjusts sound level and brightness to conform to a dimmed, quieter mode at night, purifying virtually undetected.
