ACESEAL EZ-SHOT HVAC/R LEAK DETECTOR

ACESEAL EZ-SHOT (ASEZ)

DESCRIPTION: ACESEAL EZ-SHOT is a proprietary blend of polyolester oil and various polar additives. The oil in the formula is non-polar while the additives are polar by nature. The additives (polar) have been blended into the oil (non-polar) to form a uniform blend.

When injected into a leaking system the sealant mixes with the oil/refrigerant and rushes to the source of the leak. The smaller molecules in the oil/refrigerant escape first while the larger molecules in the additives, being polar in nature and larger in particle size, are attracted to each other and then forced under “cohesive pressure” to form a flexible bond/barrier at the site of the leak.

The additives in the formula are designed to offer ongoing protection from future corrosive leaks while also lubricating seals in the system.

ACESEAL EZ SHOT is formulated to repair microscopic leaks 30 mm and smaller. One 2oz syringe will treat up to 6 ton unit. Compatible with all oils and refrigerants

- Permanently Seals Leaks in A/C & Refrigeration Systems
- Does Not React with Air or Moisture
- Compatible with All Lubricants & Refrigerants
- Treats Up To 6 Ton Unit
- Reduces Compressor Noise and Extends Compressor Life
- Contains Additives to Protect Against Future Corrosion

DIRECTIONS: If necessary charge the system. To apply product, make sure the unit is switched ON. Unscrew the cap on the syringe and hold upright. Then depress the plunger to expel any air in the syringe. Attach syringe to injector hose. Next connect the hose to the low pressure port of the A/C system and inject the contents. (If high pressure is experienced, use a caulk gun to increase pressure on the plunger). Disconnect the cartridge

from the A/C system. Recharge the system after injecting the sealant into the system. Read additional technical tips on product label before use.

SPECIFICATIONS:

Specific Gravity89
Viscosity 137.2 cSt
Color Dark Blue
Packaging 12 kits/cs or 12 refills/cs

WARNING: Keep out of the reach of children. Avoid skin/eye contact. Wash hands after use. Always wear protective eyewear. In case of eye contact flush with clean water for 15 minutes. Seek medical help if irritation persists. This product contains an ingredient known to the State of California to cause cancer, or birth defects, or other reproductive harm.

DISPOSAL: Dispose of in accordance with all local, state and federal regulations.
