Malco®

CUT CLEANER AND FASTER. NEW DOUBLE-CUT TURBOSHEAR

Attach to any drill or impact driver for easy, clean shearing on both edges of the cut.

- Cuts up to 18-gauge (1.32mm) galvanized steel.
- Makes clean cuts on both edges as scrap spirals out of tool path.
- Cleanly disengages from cut without pulling scrap through tool head.
- 360° rotating head for optimum tool clearance and material flow.
- *Also available for pneumatic use. (TSM DA)*

TSM D

NEW 360° rotating head and telescoping clamps deliver even more flexibility and productivity.

Specifications

Catalog Number	Description	Capacity	Net Wt. lbs. (kg)
TSM D	NEW Double-Cutting TurboShear	Galvanized Steel (18-Ga.)	2.60 (1.18)
